

VISA Account Updater (VAU) Service

Notice of Right to Opt-Out

Disclosure

This disclosure is provided by Fairport Federal Credit Union to Credit Union members with VISA debit cards.

From time to time the Credit Union must issue replacement cards for various reasons including lost, stolen and compromised cards. When a card is replaced the card number, expiration date, and card verification value (CVV) security code will change.

If you previously provided your debit card information to merchants, subscription services, e-commerce merchants or others for the purpose of making recurring payments, the information that they currently have on file will not match the card account detail for your newly issued card. This may lead to disruption of your recurring payment services and interruption in the products/services you receive from your merchant(s) because they no longer have accurate card information.

In order to avoid these disruptions, VISA has implemented, VISA Account Updater (VAU) Service, through which the Credit Union will provide your new card details to participating merchants automatically. VAU enables the secure, electronic updating of your debit card account information with participating merchants in a timely and efficient manner.

If you would like to opt out of the VAU Service, you can complete the Opt Out Form found in "Forms" under Quick Links on our website. Please print, complete, sign and return the form to the Credit Union office. Once your request is processed you will receive a confirmation email.

You may also call the Credit Union office at 585-223-9151, Ext. 219 if you have any questions about this service.
